INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Handelsbanken Markets Securities, Inc.

We have audited the accompanying statement of financial condition of Handelsbanken Markets Securities, Inc. (the "Company"), a wholly owned subsidiary of Svenska Handelsbanken AB, as of December 31, 2007. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Handelsbanken Markets Securities, Inc. a wholly owned subsidiary of Svenska Handelsbanken AB, as of December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

1. Nature of business and summary of significant accounting policies

Nature of Business

Handelsbanken Markets Securities, Inc. (the "Company"), a wholly owned subsidiary of Svenska Handelsbanken AB (the "Parent"), was incorporated in the State of Delaware on January 9, 1995. The Company is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and a member of the Financial Industry Regulatory Authority ("FINRA"). The Company engages primarily in equity brokerage services.

The Company acts as an agent for institutional customers and other broker-dealers in the purchase and sale of foreign securities. The Company executes and clears all of these foreign trades through the Parent and affiliates. These trades are settled on a delivery versus payment basis. The Company's commissions on foreign securities transactions are collected by the Parent and remitted to the Company monthly.

All domestic securities transactions are cleared through a clearing broker on a fully-disclosed basis and, accordingly, the Company does not carry securities accounts for customers or perform custodial functions relating to the customers' securities.

Cash and Cash Equivalents

The Company considers money market accounts to be cash equivalents.

Financial Instruments

Statement of Financial Accounting Standards ("SFAS") No. 107, "Disclosures About Fair Value of Financial Instruments" requires that all entities disclose the fair value of financial instruments, as defined, for both assets and liabilities recognized and not recognized in the statement of financial condition. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

6. Income taxes (continued)

Deferred tax assets, net, at December 31, 2007 represents the anticipated federal, state and local tax benefits that are expected to be realized in the future upon the utilization of the underlying tax attributes comprising this balance. Accordingly, there are no valuation allowances recorded against the deferred tax assets at December 31, 2007.

7. Concentrations of credit risk

The Company is engaged in various brokerage activities whose counterparties are primarily institutions. In the normal course of business, the Company is involved in the execution and settlement of various securities transactions whose counterparties are primarily institutions and affiliates. The Company has receivables and payables for financial instruments sold to and purchased from brokers and dealers. The Company is exposed to risk of loss from the inability of the brokers and dealers to pay for purchases or to deliver the financial instruments sold, in which case the Company would have to sell or purchase the financial instruments at prevailing market prices. Pursuant to the terms of the agreement between the Company and the clearing broker, the clearing broker has the right to charge the Company for losses that result from a counterparty's failure to fulfill its contractual obligations.

The Company maintains its cash balances in various financial institutions. These balances are insured by the Federal Deposit Insurance Corporation up to \$100,000 per institution.
